

THERMOCOUPLE TYPE K

WITH CERAMIC TUBE

These sensors are available with thick wall protective sheaths in ceramic for high temperature application.

Specification

- Material Sheath: Ceramic
- Sensing Elements: K according to IEC 60584-2:1995
- Diameter Steel Tube: 20 mm
- Length: 50 mm
- Diameter Ceramic Tube: 15 mm C610
- Length: 450 mm
- Accuracy : Class 1
- Operating Temperature: 1150°C
- Head Types: Aluminium
- Protection: IP65
